Message from our GM Richard Chuang

Dear HTE Family Members:

Season's Greetings everyone! As the holiday season approaches us, we're in the giving spirit and for the month of December we have created some amazing deals for Christmas and also to compensate for the exchange rate issue. These are the best deals yet and what better way to end off the year then to save you money and share these wonderful medical devices with loved ones.

These special packages can be found on Page 8 in the newsletter. In addition, we are giving out Double Points on all Super Combos and all SUC Express Packages. This special price will also apply for European orders. For those who would like to sponsor people with an ERE in EU, now we have the transformer available, it will be complimentary this month with each ERE orders for Europe. It's the right time for you take advantage of the price, get double points for you and your downlines to help them promote to the next level and win you the trip to Los Angeles.

We have a few winners already and I would like to congratulate those who have qualified and I really encourage you to win the cruise as well. The topic of the month in this issue is about the Mexico Baja Cruise and it provides you details about it. It also shows photos of the beautiful places that will be visited. This will definitely be a great vacation for you and your family to enjoy. We also have the special buy-in price for those who would like to participate in the LA seminar. It comes with accommodation, and a city tour. Please come with your team and meet other outstanding distributors from US and Mexico, and learn some first hand information from the company.

Our website is up and running with most of the updated information on the shopping cart. The shopping cart is now a convenient way to place orders because it is available 24 hours a day, and 7 days a week. If you haven't tried it yet, I suggest that you do cause it's easy, safe and fast.

I've heard lots of positive feedback from our distributors about the new SOQI DVD. The DVD talks about the SOQI concept, and the SOQI business, and I strongly recommend that you have a copy for yourself. It's also an excellent Christmas gift to give to your downlines. This will help them understand why we keep talking about SOQI, and what SOQI can bring for your health and wealth.

Lastly, this is just a reminder that according to the Health Canada regulations, we cannot distribute our Medical Devices to the US through the Canadian office, so please contact HTE USA to place orders that will be shipped to the US. This rule applies to Americans as well wanting to place an order with a Canadian address. US people will need to contact HTE Canada to have the orders shipped from the Canadian office.

Have a safe and healthy holidays and Happy New Year too!

“Nothing Speaks Louder Than Experience!”

**Joyce D Walker
Alliston, ON**

At the age of 15 months, I was diagnosed with Cerebral Palsy (CP). This affected my right side, basically involuntary muscle contractions. I couldn't use my right arm, and although I could walk, I walked with a limp.

Up until I was 31, my CP was never a problem. But as I aged, my left side became increasingly tired. I needed rotator cuff surgery on my left shoulder, leaving me with no arms for about six months.

As time moved on, my left side became more and more fatigued. I had a lot of upper back and neck pain. Then the worst happened. The pain moved to my lower back and hips. I was 45 and walked like an 80 year old. As I sat in my doctor's office, I would watch an elderly person get up and walk to his office, and most of them were walking much better than I was.

I had no energy, and no interest in doing anything. I could not even go shopping by myself, as I could not make the rounds at the mall.

About six weeks ago, I met Pat. I call her happy Pat. She told me about this wondrous machine. I must admit I was very skeptical. But I was in so much pain that I went to visit her.

After five minutes on the Chi and fifteen minutes in the HotHouse, the pain was gone. I purchased the Chi Machine right there and then. Within one week, I had very little pain. Six weeks later, there was no pain whatsoever. I stopped taking my muscle relaxants and painkillers. If I experienced any discomfort, I would use my Chi Machine and the pain would disappear. I have all the energy in the world now. Instead of watching TV all night, I can get up and do things. I can be involved in committees and other things, which is great.

I thank God for meeting Pat and for her introduction of the Chi Machine.

Congratulations to everyone that promoted!!

"My favorite saying is "The proof is in the pudding". We can talk at length about the benefits of HTE products like the Chi Machine, the HotHouse or the ERE. But in the end, unless someone uses these products for themselves or someone close to them shares their experience and you can actually witness the benefits, it all remains in the realm of maybe. For myself, people close to me were getting good results so I started using the machines on a regular basis i.e. Chi, ERE and HotHouse. I use the Chi Machine and the HotHouse on a regular basis and usually first thing in the morning for about 20-25 minutes. I find it a relaxing way to start the day and if I am tired, it invigorates me. If I come back from work and I am feeling tired or sluggish, I will go on the Chi Machine for 10-15 minutes. I enjoy the "Chi rush" in those circumstances. One unique experience I had occurred last spring. As I was unloading a drum power sander to finish some hardwood floors in the house, I pulled a muscle in my back. I was concerned that I may have hurt my back but I went ahead and finished the job. I could feel the sore muscles in my back so when I was done sanding, I took 20 minutes and went on the Chi Machine

While on the Chi Machine, all of a sudden I felt the pulled muscle in my back relax. I got up and my soreness was gone. The next morning, everything was fine. I was very grateful to have experienced this as it gave me the proof that these products do work and can offer benefits in many forms. HTE products now form an integral part of my wellness program."

"It was truly great achieving Manager Level. Wow! This has been a rewarding venture in building friendships with so many positive and caring people. I owe a lot of credit to the hard work and support of all my downlines. Karen Cronk is a real mentor! My motto is "Prevention is the Cure" and I feel that this is what these machines are all about as well as improving health thus, giving one a better quality of life. I was first introduced to the Chi Machine through a co-worker, Kyla. The word "chi" prompted my attention, and I couldn't stop asking her questions. I tried the machines and being a Reflexologist, I realized the many health benefits these machines had to offer. I have since purchased the machines and my dream of owning a SOQI bed has just recently been fulfilled. My energy level and neck problem have improved -- no more crunching and less soreness. I was to go for Carpal Tunnel surgery one and one-half years ago. Through some research I found "FIR" would help so used "FIR" (HotHouse) faithfully, and also took vitamin B-6. Within a couple months no more morning numbness in my right hand and the numbness in tip of middle finger was totally gone. I thank you immensely HTE ---- Health is Wealth!"

"Wow! I get some energy machines to help me with my health issues and before I know it, I'm Manager! I told a few people and felt bad that I couldn't reach more of them because I didn't have the strength yet. In the meantime the testimonials were so awesome and the sales went up, just like that. Thank you to my entire team!"

"Since I personally tried out the devices, I speak about it to customers who come to see me for a Physiotherapy treatment. Before receiving the HTE devices, I was putting my customers under lamps to warm their muscles before treating them. But having made them try the infrared HotHouse and Chi Machine once, they do not want to do without it anymore. I changed my way of working. Now, I put all my customers on the SOQI bed first and then give them a Physiotherapy treatment. The customers have noticed that they breathe better and their body feels better as well. HTE Canada is a serious company, and at the same time at the forefront. We have excellent service. The compensation plan is very convenient and rewarding. It is rather easy to gain promotion and offer the business opportunities to people of your surroundings. They believe in it, because it has been easy for me. I am very happy to have discovered HTE devices."

FRENCH:

"Depuis que je l'ai expérimenté sur moi, j'en parle avec les clients qui venaient me voir pour recevoir un traitement de kinésithérapie. Avant de recevoir les appareils HTE, je plaçais mes clients sous des lampes pour réchauffer leurs muscles avant de les traiter. Mais après leur avoir fait essayer les appareils à infrarouge et la chi-machine une fois, ils ne veulent plus s'en passer. J'ai changé ma manière de travailler. Maintenant, j'installe tous mes clients d'abord sur la table SOQI et ensuite je leur fait un traitement de kinésithérapie. Les clients observent qu'ils ont une meilleure respiration, qu'ils se sentent mieux dans leur corps. La compagnie HTE est sérieuse, et en même temps avant-gardiste. On a un excellent service. Le système de rémunération est très avantageux et motivant. Il est assez facile d'obtenir de l'avancement et d'offrir l'opportunité d'affaires aux personnes de mon entourage. Ils y croient, parce que ça été facile pour moi. Je suis très heureux d'avoir découvert les appareils HTE."

Topic of the Month

There's no better way to start off the New Year than to win a trip to Los Angeles, California. And with this being the last month to qualify for the trip you still have a chance.

Come and experience

***HTE's 2008 Spring Outstanding Distributor Seminar on
March 8 – 11, 2008***

It is our great pleasure to host this event for our distributors and accommodate them as best as we can. We truly hope they enjoy their stay at the Los Angeles Marriott Downtown hotel located in the heart of the financial district of downtown Los Angeles. With 400 guest rooms and 69 suites, this is one of the most comfortable and spacious hotels in the downtown area. Los Angeles Marriott Downtown offers a beautiful outdoor heated pool, three restaurants and a lounge. Its close proximity to many attractions including Staples Center, Los Angeles Convention Center, Music Center, Cathedral, Dodger Stadium, Beverly Hills, Hollywood, Universal Studios, and Disneyland, make it a popular vacation destination.

Ports of Call: 1) Los Angeles, 2) San Diego, 3) Catalina Island, California, 4) Ensenada, Mexico

***Cruise Included:** Shipboard accommodations, ocean transportation, most meals, some beverages and most onboard entertainment.
***Cruise Not Included:** Air transportation; transfers; items of a personal nature, such as shore & land excursions; specialty restaurant fees, some beverages, photographs, gratuities/service fees, medical services, etc.

About the Ship

Monarch of Seas

Be one of the first to experience the recent stem-to-stern renovation of Monarch of the Seas. Departing from L.A. year-round, this remarkable 2,744-guest cruise ship sets sail for the ultimate Baja cruise vacation. In addition to the spectacular on-shore excitement, you'll enjoy Monarch's state-of-the-art features, like the new, oversized spa and fitness center, specialty Asian-fusion cuisine at Jade, a make-your-own pizzeria, and, of course, Royal Caribbean's signature rock-climbing wall

1) Los Angeles, CA

It's an exciting semitropical city of palm trees, swimming pools, television studios and aerospace factories. Los Angeles is one of the world's most exciting cities and the movie-making capital of the world. Wherever you visit, from ritzy Beverly Hills to the wondrous Hollywood Bowl, you'll have an unforgettable stay.

2) San Diego, CA

San Diego is California's "first city," with roots dating back to 1796. San Diego's beautiful harbor is a lovely place to stroll and explore. Historic Seaport Village, along the Embarcadero, is filled with fascinating shops and galleries. But if you wish to explore further, San Diego offers a world of excitement.

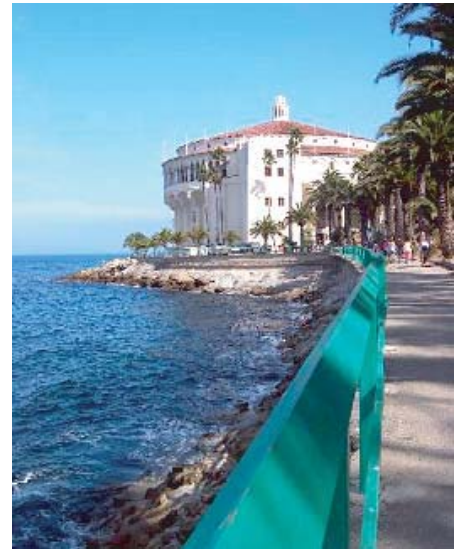

The One Thing You Don't Want to Miss

See some of the most amazing animals on earth at the world-famous San Diego Zoo. Enjoy magnificent exhibits, which will amaze adults and children alike. Be sure to see the famous Panda Bears, a gift to the zoo from China.

3) Catalina Island, CA

Catalina Island, located off the southern coast of California, is the home of the Mediterranean-style town of Avalon, with its small-town charm and circular Moorish-style casino (now used as a concert venue) on the harbor. The population of 2,500 swells to nearly 20,000 in season, yet three-quarters of the island remains undeveloped. The picturesque island is a popular setting for movies. In fact, a herd of buffalo abandoned years ago by a film crew still roams the interior sections of this island.

The One Thing You Don't Want to Miss

Join an exploration of Catalina Island's coastline onboard a motorized rigid-hull inflatable raft. There is a good chance you'll encounter the island's bald eagles, harbor seals, sea lions, red tail hawks and other local wildlife. View Long Point, Italian Gardens, Goat Harbor, and Rippers Cove. Then continue two to three miles offshore in search of dolphins during the ride back to Avalon.

4) Ensenada, Mexico

South of the border, alongside mountains, desert and sea, Ensenada offers a warm and wonderful introduction to Mexico. The oldest community on the Baja Peninsula, it was first visited by Spanish missionaries in the 17th century. Today it's a thriving seaport. Ensenada's breezy climate invites exploration, shopping for colorful handicrafts, dining on delectable seafood, viewing the wonderful Gold Coast, and sipping cervezas in lively cantinas.

The One Thing You Don't Want to Miss

For one of the most amazing sights in Ensenada, travel through the city and into the countryside, past farms and olive groves, to "La Bufadora," or blowhole. This fascinating natural phenomenon shoots water through crevices formed in the rock face of the cliff.

Got a question?

Q & A

We've got the answer!

- 1. I just purchased a SUC Express package and noticed that I only got paid 15% commission on it. I thought I would promote to SUC level and get paid 24% commission. Can you explain?**

When you first purchase the SUC Express package, you are at DIC level earning 15% commission. After you purchase the SUC Express package, you are promoted to SUC level and then entitled to earn 24% commission. Therefore, you will earn 24% commission on your next purchase.
- 2. Can I transfer the free Chi Machine from the SUC Express package to a new sign-up?**

No, the free Chi Machine from the SUC Express package is not transferable. This machine cannot be used as a qualifying machine for a new sign-up because it does not come with any BVP.
- 3. If I purchase a SUC Express Package, how long do I have to transfer a machine to a new DIC sign-up?**

You will have SIX months to transfer a machine to a new DIC sign-up.
- 4. What is this new SOQI DVD?**

This DVD is an excellent marketing tool to use in your home parties, DSM or trainings. Not only does this DVD show you how the HTE business was developed but also gives you an opportunity to hear from Distributors from all over the world. In addition, it explains approaches to help you with your business, gives you details on how to develop wealth through marketing and allows you to hear directly from the Chairman – Mr. Gordon Pan. This less than 15 minute DVD is available for only \$6.00 each.
- 5. I am at SUC level, however, I haven't renewed my membership in a year, and if I decide to renew now, will I have to start again at DIC level?**

No, the good thing about HTE is that you always maintain your level of distributorship. Therefore, when you decide to renew your membership, you will stay at SUC level and continue to earn 24% commission.
- 6. I just transferred a machine from my SUC Express Package to my new DIC sign-up and now they have decided to return it. Can I still use this same machine to qualify somebody else?**

Yes, you can still use this same machine but you will have to inform us of the situation that is taking place so the return can occur and the points from the machine can be transferred to the right person.
- 7. Is there an ERE available in 220V?**

Yes, just recently we received an ERE transformer that will convert the 220V to 110V. The ERE is available to use in 3 different shape plugs to fit the outlets in the UK, EU and India.
- 8. What is the shipping cost for the products?**

The shipping cost is as follows:

 - > Chi Machine, ERE & Fir-To-GO: \$15.00 each
 - > HotHouse & Grande HotHouse: \$25.00 each
 - > SOQI Bed Set: \$300.00

> Marketing materials and non-machine items: 7% of subtotal or minimum of \$10.00 when less than \$450.00
